

Pro

Dit zonnescherm kan op de muur of op het plafond worden gemonteerd. Het biedt zonwering voor terrassen, balkons, raamuitsparingen, ramen en veranda's. De pro wordt gekenmerkt door een elegant uiterlijk en modern design.

De cassette beschermt de armen tegen wind, sneeuw, regen en stof. De doekrol zorgt dat het doek niet in direct contact staat met de weerinvloeden.
